Hello,

Many in the community are deeply concerned after last month's council meeting, where the City openly threatened to prosecute anyone who used the city logo after that point, and had all candidates sign a form acknowledging the law.

It a blatant attempt to use Hurricane Dorian for underhanded political exploit, Larry Roth and Patricia Fairclough had a flyer made with their pictures on it, and the city logo.

Also as the flyer was concerning solicitations, and there was never written approval given by the city, it appears that a felony may have been committed as well.

Is the City of Homestead going to stand by it's word and prosecute these crimes, or were you only planning to go after the opposition which you do not support?

Here is an article I wrote about these crimes:

Please let us know, so we can include your response in an update.

Also if you have a comment on Chief Rolle's campaigning for Porter, Roth and Maytan in uniform while alluding to the other candidates as mafia thugs, we would appreciate it.

Furthermore, we are requesting a statement from the city about Dennis Maytan being told to resign to primary Sean Fletcher, being provided with 100% of his pension, and the allegations of him sitting down in a meeting that day with city attorneys to get legal advice about resigning and coming back later with promises of six figure consulting contracts.

Lastly, we would like a statement on Chief Rolle calling the PBA reps into a meeting and trying to force them to endorse Roth and Maytan against Rea and Fletcher, followed by telling them that he was going to stop the First True Homestead Bi-Annual Mayoral Debate, and refusing to provide us with security.

We look forward to a quick response form the City about these appalling activities taken in a direct attempt to unfairly and/or illegally manipulate the election.

Thank you and God bless.
